

NOTICE OF CONSTRUCTION

Reservoir Fill Line, Utilities and Road Upgrades

June 29th, 2026

Dear Residents,

This notice is to inform you of upcoming construction activities in your neighbourhood. Please note that construction equipment, personnel, and trucks will be active throughout the project area as work continues.

The following activities are scheduled for this week:

- Road subgrade excavation and gravel placement from Tunasa Drive and Carrier Crescent, towards Mouse Mountain is starting Tuesday.
- Installation of lawn basins and catch basins along Carrier Crescent.
- Culvert installations on Park Drive, with single lane alternating traffic control starting Thursday.
- Culvert installation across Tunasa Crescent at Park Drive.

As this work takes place, residents should expect construction activity in the area of Carrier Crescent, Tunasa Drive, and Park Drive. Motorists are encouraged to use alternate routes where possible to avoid active work areas and help reduce traffic congestion.

For your safety when walking near active work zones, remain alert and do not enter or pass through a work area unless directed to do so by a member of the construction crew.

And please note the following:

- Be mindful of the water truck spraying for dust control in the area — the water stream cannot be shut off from inside the cab.
- Expect an increased presence of gravel trucks, especially along Tunasa Drive and behind Mouse Mountain Elementary.
- A 2-day notice will go to affected homeowners, prior to the temporary removal of their driveways. The crews will be working hard to have driveways reinstated before the end of the work shift.

If you require assistance accessing your property or passing through an active work area, please contact Erek for assistance.

Erek Boake	250-682-3239
