

NOTICE OF CONSTRUCTION

Reservoir Fill Line, Utilities and Road Upgrades

August 4th, 2026

Dear Residents,

This week's construction update covers ongoing work in your neighbourhood along **Tunasa Drive** and **Tunasa Crescent**. To help avoid delays near active work areas, motorists are encouraged to plan alternate routes where possible. We appreciate your continued cooperation and patience as this work continues.

The following activities are scheduled for this week:

- Completing sub-base gravel placements on Tunasa Drive.
- Preparing for curb installation on the North side of Tunasa Drive, including survey to mark out the curb locations.
- Starting subgrade excavation on Tunasa Crescent at Park Drive.

Crews will speak with residents who are directly affected about parking and access.

Your safety is important to us. Please remain alert around active work zones and avoid entering or passing through them unless a crew member has given you the go-ahead.

Please also note the following:

- Driveway access will be limited until gravel replacement is complete. Emergency access and egress will always be maintained; however, non-emergency access to your driveway will not be available during this period.
- You may notice wooden stakes in the roadway. We ask drivers and pedestrians not to disturb them, as they are crucial to finishing the project.

If you require assistance accessing your property or passing through an active work area, please contact EreK for assistance.

Erek Boake	250-682-3239
