

NOTICE OF CONSTRUCTION

Reservoir Fill Line, Utilities and Road Upgrades

August 31st, 2026

Dear Residents,

This notice is to inform you of upcoming construction activities in your neighbourhood. Residents should expect construction activity along **Tunasa Drive, Tunasa Crescent, Park Drive, and Carrier Crescent**. Motorists are encouraged to use alternate routes where possible to avoid active work areas and help reduce traffic congestion. We appreciate your patience as this work progresses.

Concrete sidewalks are scheduled to be poured between **Wednesday and Friday**, but the exact day may be determined last-minute due to the current weather conditions and forecasted rain. If the sidewalks cannot be poured this week due to rainy conditions, the pour will be pushed to the following week. We will do our best to give residents who are affected as much notice as possible.

Crews will be going door to door to speak with residents who are directly affected about parking and access.

The following activities are scheduled for this week:

- Curb preparation on Carrier Crescent
- Driveway culvert installation on Tunasa Crescent, Carrier Crescent, and Tunasa Drive.
- Excavating the remainder of Park Drive & Tunasa Crescent intersection with single-lane alternating traffic control in place.
- Excavating the Village parking lot and replacing gravels.
- **Closure on Monday** of the Park Drive / Tunasa Crescent / Chowsunket Street intersection from the west approach. Reopening by 1:00pm on Tuesday. Please see image below for more details.

If your property is affected by the sidewalk pour:

- Vehicles must not be driven across the freshly poured sidewalk for **7 days** after the pour.
- Foot traffic on the sidewalk is acceptable starting **1 day** after.
- On-street parking in front of your home remains available, except during the concrete pour itself — **any vehicles will need to be moved before 7:00 AM on the day of the pour.**

If you require assistance accessing your property or passing through an active work area, please contact EreK for assistance.

EreK Boake	250-682-3239
