

NOTICE OF CONSTRUCTION

Reservoir Fill Line, Utilities and Road Upgrades Concrete Sidewalk Pouring on Carrier and Tunasa Crescent

September 14th, 2026

Dear Residents,

This notice is to inform you of upcoming concrete sidewalk pouring on Carrier and Tunasa Crescent. Crews will be preparing the site on Monday, September 14th, with pouring taking place September 15th–17th. This is a **reminder not to disturb freshly poured concrete**, both for your safety, as wet concrete is corrosive to skin, and to help avoid costly repairs and project delays.

If your property is affected by the sidewalk pour:

- Sidewalk preparation is taking place on Monday, September 14th.
- The concrete pour is scheduled for Tuesday to Thursday, September 15th-17th.
- Freshly poured curbs will need **two full days to cure** before they are disturbed or driven over. Please park all vehicles elsewhere until Dawson Civil lets you know it is safe to use your driveway again — driving on the curb too soon can damage it and delay the project. And,
- **Please remove your vehicle from your driveways and the street the night before the day of the concrete pouring.** Driveways are inaccessible until sidewalk work in your section is complete.

Crews will be going door-to-door to speak with residents who are directly affected with information about parking and access. If you require assistance accessing your home during the sidewalk pouring, please contact Stephen for assistance.

Stephen Vickers	250-608-8425
